

12th ISPRP National Conference 2019

Theme: "Partners in Excellence"

Date: 2nd - 4th August 2019

Venue: JSS DENTAL COLLEGE & HOSPITAL, JSS Medical Institutions Campus
JSS Academy of Higher Education & Research (JSSAHER) S S Nagara, Bannimantap,
Mysuru – 570015, Karnataka, INDIA

Course 3

Topic:

RIGHT BITE- A LIVE DEMONSTRATION

Faculty:

Dr. Konark Patil

Objectives

A right bite is always important for any prosthetic treatment to be successful but equilibration of the bite starts with existing bite registration. Simple tricks can be used to make sure that the occlusion in articulator coincides with that of the patient so that there are fewer adjustments done in the final prosthesis. This course will shed light and show live demonstration of different techniques of recording bite, recording face bow and analysing occlusion using articulating paper. This course will also show methods of deprogramming muscles with different de-programmers and TENS.

Demonstration :

The demonstration will be done on , one fully dentulous patient , with mounting of casts on articulator and facebow transfer . Bite registration and deprogrammers will be demonstrated.

Capacity: 40

Fee: 1000/-
